**Season Dates:** The first two Saturdays of May and from May 13, unless May 13 is a Sunday, in which case the season will begin the following day through June 30.

**Area Open:** Beaver, Iron, Washington, Piute, Wayne, Garfield, Kane, and San Juan counties and the area south of Interstate 70 in Grand, Emery and Sevier counties.

**Restrictions and Requirements:**

- 1) An eyas may not be removed from its nest prior to 10 days of age.
- 2) Nests may not be entered when young are 28 days or more of age.
- 3) Recently fledged young may be trapped within 100 meters of the nest.
- 4) A Fledgling may be trapped for up to 30 days after fledging.
- 5) Each falconer who takes a nestling from the wild must report the sex and precise information about the capture location for each bird to the Utah Division of Wildlife Resources (UDWR) and to the U.S. Fish and Wildlife Services (USFWS) within five days of the take. If the falconer determines after submitting the information about the sex of the bird from the initial report was incorrect, the report to the UDWR and the USFWS should be corrected.
- 6) For potential stable isotope analyses and law enforcement purposes, the falconer also should submit two plucked breast feathers from nestling after the bird is 30 days old. The feathers must be shipped or mailed to the Division of Migratory Bird Management; U.S. Fish and Wildlife Service; 4401 North Fairfax Drive, Mail Stop 4107; Arlington, Virginia 22203-1610. When submitting the feathers, the permittee should report precisely where the nestling was taken from the wild.

Other restrictions may apply on some public lands. Successful applicants should check with these public land agencies for more information prior to capturing or attempting to capture eyas Peregrine Falcons from these lands. You must obtain prior written approval from landowner or authorized agent for entry onto private lands.
